

# PRASHANT RAJPUROHIT

## Web Developer (FrontEnd)

Contact:8146496464

Email: [dev.prashant.rajpurohit@gmail.com](mailto:dev.prashant.rajpurohit@gmail.com)

Git:<https://github.com/prashantrajpurohit>

## Experience

- **Youtube: February 2023** ->In this i have used the real data of youtube from youtube videos api and with google api key , built an optimized search bar (debouncing ) we can play the videos also what is unique about is that is has nested comments(with n level of nesting) which youtube dont have

**Tech Stack:React Js , Redux ,Tailwind**

- **Batterywala : December 2022 (Freelance project)**  
Batterywala is basically a battery selling website. In which, if you are a dealer, you can add and sell your products. And if you are a user, you can buy products. Also, you can become a Dealer.

**Tech Stack : React Js (State Management and SPA ), Javascript, CSS (Bootstrap and Vanilla CSS)**

- **AMAZON-Clone : October 2022**  
Clone of Amazon Shopping Website.

**Tech Stack: React Js,Redux,Stripe(Payment gateway),Javascript**

- **Weather-Webapp : November 2022**  
It is an application to Know the weather of a specific city or location.In this Web-app, I have used the Open Source API.

**Tech Stack : Javascript, HTML and CSS**
